Maximizing Opportunities for Growth: Accessing Government Funds for Nonprofits

Finding and applying for government funding can be a daunting task for any nonprofit. Learn the strategies and tools needed to navigate the process and maximize your opportunity for success in securing government dollars.

The workshop will be led by Lindsay Fello of G2G consulting, llc, a firm that has helped business and nonprofits raise over \$22 million in state and federal funding over the last two years. Lindsay will provide an overview of the three types of government funding: competitive grants, discretionary funds, and earmarks; share information on the various government departments that are funding nonprofits; and explain how to create a strategy to maximize your opportunity for success in securing government dollars. Attendees will also learn about the federal and state budget timelines and factors that determine an organization's success in securing funding. Case studies from Ohio nonprofits that have successfully navigated the maze of government funding will be discussed as well.

Two Silver Bullets: Contingency Planning and Cash Flow Management

2010 is looking to be even tougher for most nonprofits, yet few have well-defined plans to deal with the challenges of reduced resources and increased service requests. Contingency planning and cash flow management are two silver bullets board members and CEOs need to survive another resource-strapped year.

Topics covered in the program will include:

- Developing realistic contingency plans
- Establishing criteria for moving from one plan to another
- Creating a cash flow budget to ensure there will be enough cash on hand each month
- Communicating your financial situation to key stakeholders

This interactive program will feature a slide presentation, case study, and include resources for additional study. Continental breakfast will be served.
